World Soil Day

WORLD SOIL DAY 2017 – Land, Soils and Science
IBGE Brussels, 4th - 6th December 2017

Let’s talk about Land, Soils and Science
Land and soils require our attention! This celebration of World Soil Day is devoted to the topical research needs for soil and land use. The event will present and discuss state-of-the-art and pressing gaps in European research on land and soils from the perspectives of policy makers, funders, end-users of research and scientists.

Science creates and supports implementation of knowledge we need for sustainable land use and soil management

Learn about
• Research challenges for the future – what do policy-makers, end-users of research and scientists need and want
• Boundaries of research and knowledge
• Selected projects in Europe on sustainable soil and land management
• Meet with like-minded European stakeholders and research funders

Conference organisation
This event is organised by the European Commission funded Coordination and Support Action INSPIRATION www.inspiration-h2020.eu and the Soils4EU service contract to DG Environment.

Registration
You can register to take part in the entire event or parts of it. Capacities are limited. Further information is provided at www.worldsoilday2017.eu

Venues

Accommodation
Please make your own accommodation arrangements, e.g. at https://visit.brussels/de/article/green-key

Fees and early career support
Participation in the conference is free of charge. A limited budget is available on a first come first serve basis to reimburse travel costs for participating early career persons, in particular PhD students. To qualify, you must send a letter of motivation, CV and cost estimation to stephan.bartke@uba.de by latest 23 Nov. 2017.

INSPIRATION acknowledges funding from Horizon2020 Framework Programme under grant agreement no 642372
Soils4EU is a DG-Environment Service contract for providing support in relation to the implementation of the EU Soil Thematic Strategy
Register at: www.WorldSoilDay2017.eu
10:00 Welcome / Registration
Registration and welcome coffee

11:15 Opening / Welcome
Welcome by conference chair and INSPIRATION coordinators Stephan Bartke and Detlef Grimski, German Environment Agency (UBA)
Welcome by European Commission Marie Yeroyanni | tbc, DG Research Josiane Masson, DG Environment

11:30 Soils4EU reports
Transboundary effects of soil degradation – Challenges and ways ahead Nina Hagemann, Helmholtz Centre for Environmental Research – UFZ
Soil related ecosystem services – status, trends and value Suzanne van der Meulen, deltares

12:30 Sustainable spatial planning, land use and soil management – Closing knowledge gaps - implementing new research collaborations
The INSPIRATION Strategic Research Agenda – Topics and match-making of funders C. Paul Nathanail, University of Nottingham
Introduction to the afternoon sessions – Match–making and project workshops Stephan Bartke, UBA

13:00 Lunch and networking
Atrium

INSPIRATION acknowledges funding from Horizon2020 Framework Programme under grant agreement no 642372
Soils4EU is a DG-Environment Service contract for providing support in relation to the implementation of the EU Soil Thematic Strategy

14:00 Parallel sessions

Several sessions support policy and funding institutions interested in collaborative provisioning of research projects. Stakeholders from practice and science are invited to discuss in workshops research needs related to transboundary effects of soil degradation and ecosystem services.

**Transnational research funding - Lessons from past for future collaborative funding**

*Chair: Isabelle Feix, ADEME*

This session presents experiences and lessons learnt from SNOWMAN network research funding activities. Opportunities for future transboundary collaborative funding actions will be discussed.

**Part 1 : Transnational research funding - SNOWMAN network and projects**

- Esther Goedts (introduction)
- Marcel Marloie (Urban Soil project)
- Dan Berggren-Kleja (IBRACS project)

**Part 2: Lessons learnt from past for future collaborative funding:** Yvonne Ohlsson, SGI, introduces results of a SNOWMAN questionnaire and invites all participants to an interactive discussion.

**INSPIRATION match-making**

*On invitation*

Based on identified research funding interests for topics of the INSPIRATION research agenda, a series of facilitated match-making events is planned. If you wish to join, please indicate your funding interests at www.inspiration-agenda.eu

**Excursions “Le Petit Manchester”**

*Le Petit Manchester*

The historic heart of Molenbeek was known in the 19th century as “the Little Manchester Belgian”. Join a guided tour through the old Molenbeek, discover the many traces of its social and industrial history and the living area of today.

**Soils4EU - Transboundary effects of soil degradation in the EU**

*Chair: N. Hagemann, UFZ*

Soil degradation occurs in different forms such as erosion, soil organic matter decline or sealing and compaction. The transboundary impacts can be economic, social and environmental, e.g. driving climate change, health problems and food shortage.

We bring together experts to exchange on the transboundary effects of soil degradation, to specify the challenges to overcome different types of degradation and to discuss the availability of data. This also includes recommendations for future research activities as well as policy implications.

**Soils4EU - Soil ecosystems and their services**

*Chair: S. v. d. Meulen, deltareas*

Soil plays a key role in the provision of ecosystem services (ESS) and it does so in more ways than many people expect. Soils4EU in cooperation with the MAES Soil working group provide insight into status and trends of soil ESS potential, use and value. We support the inclusion of soil condition in assessments for e.g. agro-, forest, freshwater and urban ecosystems.

The aim of this session to present the state of the art with respect to the assessment of soil ecosystems and their services and to discuss the potential recommendations for soil managers, policy makers, researchers and funding bodies.
09:30 Welcome / Registration
Registration and welcome coffee

10:15 Welcome addresses to World Soil Day 2017 celebration in conjunction with INSPIRATION Final Conference “Land, Soils and Science”

Why we need to talk about land and soil research today!
Lilian Busse, German Environment Agency - Head of Division Environmental Health and Protection of Ecosystems

The need for strategic research on land and soil for society
MEP Pavel Poc, Vice-Chair - Committee on Environment and Chair - Climate Change, Biodiversity and Sustainable Development Intergroup of the European Parliament

Actions related to EU’s soil policy
Claudia Olazabal, European Commission, DG Environment Head of Unit Land Use & Management

11:00 Topical knowledge gaps and research needs of Europeans towards sustainability in spatial planning, land use and soil management: The INSPIRATION Strategic Research Agenda

Addressing societal challenges in a research agenda for soil management and land use
Annette Gatchett, U.S. EPA, Division Director

Outside the box thinking for an innovative research agenda
C. Paul Nathanail, University of Nottingham

11:45 Policy perspectives: The role of land and soil science to address societal challenges

Chair: Lilian Busse, German Environment Agency

High-level representatives discuss the role of soils on policy agendas. They illustrate examples, why soils matter from EU to local level. The debate will show why soil research is needed at different policy levels, and most importantly, what societal challenges must be addressed.
12:45 Lunch | Networking and poster session

Next to a buffet lunch, INSPIRATION partners present identified research and knowledge needs for more sustainable soil and land management in Europe.

14:00 End-User perspectives: What Land and Soil Science do we need?

Chair: Margot de Cleen, Dutch Ministry of Infrastructure and the Environment; European Soil Expert Group

Representatives of different end-user groups debate on questions like: What do you need/want from policy and science? What are your knowledge gaps that need to be addressed? Do you want more applied or fundamental research? Is there too much or little policy on land and soils?

15:30 Science Perspectives: What Land and Soil Science do we want?

Chair: Violette Geissen, WUR & European Soil Partnership

Representatives of different research groups will debate on: What type of science do we need (interdisciplinary, fundamental)? What are most critical areas of land and soil related science today? How to address data-information availability/issues (to be able to implement soil management (on local/national scale))? What potential has citizen science? How to improve the science policy interface?

16:30 Outlook: Lessons learned for land and soil research for Europeans

Actions related to EU’s research policy
Birgit de Boissezon, European Commission, DG Research & Innovation
Head of Unit Sustainable Management of Natural Resources

Outlook to INSPIRATION implementation actions
Stephan Bartke, German Environment Agency

17:00 Poster session, reception and networking

We invite all participants to a poster and networking session at the Atrium of IBGE Brussels. Event closes at 18:00.

09:00 Keynote by Didier Vancutsem

Didier Vancutsem is an international expert with large experience in Urban and Regional Planning, Landscape Planning, Infrastructure, Environmental Management and Integrated Strategies. Based in Munich / Germany, he operates as Office Director at urban scape | Vancutsem Landscape Architects + Urban Planners and conducts also research activities in European and international projects. He is Associate Professor / Lecturer at the Université Libre de Bruxelles / Faculty of Architecture, University of Applied Sciences Munich-Weihenstephan, Université de Lille, Higher Institute of Town Planning Brussels and at the Technical University Perm / Faculty of Architecture. Since October 2013 he is Secretary General of the International Society of City and Regional Planners. He is also member of different professional societies, honorary appointments in Europe and worldwide, AESOP representative and IFLA Europe Delegate.

10:00 Parallel sessions

Match-making sessions support policy and funding institutions interested in co-funding research collaborations. Stakeholders from practice and science are invited to discuss in workshops the state-of-the-art knowledge and research needs.

LANDMARK – Soil management, monitoring and understanding the supply and demand of soil functions at a European scale

Chair: Rachel Creamer, WUR

LANDMARK is a research project on the sustainable management of land and soil in Europe. The questions that LANDMARK aims to address are: “How can we make the most of our land? How can we ensure that our soils deliver on the many expectations we have of our land?”. These expectations (or ‘demands’) include:

1. Primary productivity (agriculture and forestry)
2. Water purification and regulation
3. Carbon sequestration, cycling and regulation
4. Provision of functional and intrinsic biodiversity
5. Provision and cycling of nutrients.

The overall aim of LANDMARK is to comprehensively quantify the current and potential supply of soil functions across the EU, as determined by soil properties (soil diagnostic criteria), land use (arable, grassland, forestry) and soil management practices.
Parallel sessions - continued

**S.O.S. – Save Our Sediments**
Chair: Jos Brils
deltares | SedNet

Globally, river-sea-systems are short of sediment mostly due to damming. This causes dramatic impacts such as drowning deltas. Scientists and stakeholders should find solutions. The session aims to gain support and ingredients for drafting of a call text to promote as topic under EC FP9.

**Precision governance for agricultural soils**
Chair: Bartosz Bartkowski, UFZ

There’s a mismatch between spatial heterogeneity and multifunctionality of soils and current spatially inefficient soil governance. While technological solutions are there (e.g. precision farming), incentives to align their application with SDGs is missing. We discuss chances and limits to more site-specific soil governance.

**INSPIRATION matchmaking**

Open Space, Room Sylva

Based Day 1 and 2 of the conference, we provide facilitated open space meetings to identify research funding interests for topics of the INSPIRATION Strategic Research Agenda. To join, please meet in room Sylva. Indicated funding interests at www.inspiration-agenda.eu

---

12:00 Closing ceremony and next steps

Closing of Land, Soils & Science conference and INSPIRATION H2020 project – Start into a new phase of collaboration

12:15 Lunch | Networking

Atrium

13:00 SOPHIE - Integration, innovation and standardization of measuring Soil Hydro-Physics properties

Chair: Gerben Bakker and Martine van der Ploeg, WUR
Facilitator: Saskia Visser, programme lead sustainable land use, WUR

The SOPHIE initiative’s side event focuses at reliable SHP data and understanding as a means to reach commitment upon harmonisation, standardization and innovation of SHP properties, and to set up an international collaborating workforce. New, more advanced, faster, and cheaper measurement techniques must be developed and standardized, integrated and valorised to support EU-wide management of healthy soils.
