The 10th International Symposium on Forest Soils (ISFS 2020)

Forest Soils under Global Change: Processes, Biodiversity and Ecological Services

The First Circular

October 18-21, 2020. Hangzhou, P. R. China

http://isfs2020.csp.escience.cn/dct/page/70001
Due to the rapid social and economic development, humans are increasingly altering the ecological balance of the global ecosystem. More attention is being paid to the environmental and ecological problems such as global climate change caused by increasing anthropogenic activities. Forest ecosystems are a principal part of terrestrial ecosystems, and the ecological services they provide are benefitting the development of the society. Forest soil science has been an integral part of soil science, forestry, and ecology. The 10th International Symposium on Forest Soils (ISFS 2020) “Forest Soils under Global Change: Processes, Biodiversity and Ecological Services” will be held October 18-21, 2020, in Hangzhou, China, to provide an avenue for scientists to come together to discuss pressing issues facing our profession and the society.

The objectives of this conference are 1) to bring together scientists, educators and practitioners working in the areas of forestry, forest soil science and global change biology to discuss issues of common interest, and to present the most up-to-date research findings on forest soil properties, processes, biodiversity and ecological services under the influence of global change; 2) to facilitate the development of international linkages, scientific exchange and strategic alliances in forest soils research and education; and 3) to discuss policy implications of forest management practices and climate change impacts on soil properties, forest productivity, and ecosystem processes and services.

Conference Topics
- Assessing the impact of global change factors on carbon, water and nutrient cycling, and ecosystem functioning and services.
- Advancing innovative techniques and novel approaches to simulate and monitor the effects of forest ecosystem management and anthropogenic disturbances.
- Elucidating relationships between soil processes and ecosystem functioning and services.
- Understanding the role of soil microbes and fauna in forest soil processes and response to perturbations.
- Designing strategies for management and conservation: practices to maintain and enhance forest productivity and ecosystem services provided by forest soils in particular for water cycling and purification.
- Reclaiming degraded forestlands and managing the resilience of reclaimed land.
- Managing trees in the agricultural landscape: the role of agroforestry in mitigating environmental change.
- Other forest soils related topics.

Call for abstracts
1. Participants is encouraged to submit a one-page abstract written in English (less than 400 words) for oral or poster presentations. Abstracts can be accessed online (http://isfs2020.csp.escience.cn/dct/page/70001) or submitted through email (isfs2020@163.com) on or before March 1, 2020. Please make sure to include the subject in the abstract submission email as follows: “2020 ISFS Abstract Submission+Name of the Presenter”. The abstract template can be found here: http://www.editorialmanager.com/jsss/
2. All accepted abstracts are encouraged to submit a full-length paper to a special issue in Journal of Soil and Sediments.
3. A special issue in other Journals are still being worked out

Registration Fee
2. The registration fee includes:
   - Access to conference, exhibition and poster sessions
   - Lunch and refreshment breaks as scheduled in the conference program
   - Banquet

第十届国际森林土壤学大会

全球变化下的森林土壤：过程、生物多样性和生态服务功能

第一轮通知

2020 年 10 月 18-21 日，中国杭州
尊敬的各位专家、学者：

随着社会经济的快速发展以及人们对生态平衡重视程度的日趋加深，生态环境问题越来越受到人们的重视。森林生态系统是陆地生态系统的主体，其强大的生态服务功能是形成有利于人类生存与发展的生态环境的重要环节。在全球变化问题日益加剧的背景下，森林土壤学研究已成为当前国际土壤学、林学、生态学等学科研究的焦点之一。世界各地科学家已开展了大量卓有成效的研究工作。为了深入探讨森林土壤学、林学和全球变化生态学等研究领域的热点科学问题，展示各领域最新的研究成果，促进国际交流与合作，提升森林土壤学研究的科学教育水平以及讨论关于优化森林管理措施和应对全球变化（土壤性质、森林生产力、生态过程和功能等发生的改变）的政策建议，国际土壤科学联合会和中国土壤学会定于 2020 年 10 月 18-21 日在中国杭州召开第十届国际森林土壤学大会。

一、会议议题

- Assessing the impact of global change factors on carbon, water and nutrient cycling, and ecosystem functioning and services.
- Advancing innovative techniques and novel approaches to simulate and monitor the effects of forest ecosystem management and anthropogenic disturbances.
- Elucidating relationships between soil processes and ecosystem functioning and services.
- Understanding the role of soil microbes and fauna in forest soil processes and response to perturbations.
- Designing strategies for management and conservation: practices to maintain and enhance forest productivity and ecosystem services provided by forest soils in particular for water cycling and purification.
- Reclaiming degraded forestlands and managing the resilience of reclaimed land.
- Managing trees in the agricultural landscape: the role of agroforestry in mitigating environmental change.
- Other topics related to forest soils.

三、会议地点与日程安排

会议地点：杭州之江饭店（杭州市拱墅区莫干山路188-200号）
会议报到：2020年10月18日9:00-23:00，参会代表报到、现场注册
会议日程：2020年10月19-20日，全天，会议开幕、学术报告、墙报展示、会议闭幕。

四、会议交流形式

会议交流主要有口头报告、墙报展示和研究生论坛3种形式，语言为英文，请在会议专设网站投稿时选择。国内外相关领域的专家、老师和学生均可自由投稿（仅限英文摘要，不超过400字，免图表）。口头报告

会议拟设主会场和分会场。特邀专家报告为每人40分钟，普通与会代表报告为每人20分钟。

● 墙报展示

将研究成果用展板展示。

● 研究生论坛

组织研究生学术报告专场。
