

International conference
Smart and Sustainable Cities (SSC-2020)
**«Advanced technologies for sustainable development
of urban green infrastructure»**

General information The 2nd international conference Smart and Sustainable Cities (SSC-2020) will be held in Moscow, Russia on July 8-10 2020. The conference will be hosted by the Peoples' Friendship University of Russia (RUDN University, www.rudn.ru). This year's theme for the conference will be «Advanced technologies for sustainable development of urban green infrastructure».

Conference aim and history SSC is regular conference organized every second year to discuss the recent problems, advanced technologies and current opinions in urban sustainable development. The previous meetings provided an excellent discussion platform for a broad audience, including scientific and research community, municipal services, environmental protection agencies and stakeholders working in urban management and greenery. SSC-2020 conference will remain and strengthen the developed inter-disciplinary status of the meeting and at the same time will put extra attention to technological solutions in smart cities, including big data analysis, internet of things etc.

Program The scientific program will include a plenary session, 8 thematic sessions, addressing different aspects of environmental monitoring, modelling, assessment and management in urban areas and 3 round tables, aiming to build cooperation between scientists, engineers, business and policy-makers in the sphere of smart technologies of sustainable urban development. SSC-2018 will be followed by a post-conference tour, observing anthropogenic and natural soils and landscapes of Russia from subarctic to subtropical zones.

Materials Conference abstracts shall be submitted in English via the on-line registration system at the conference web-site (ssc-conf.org). All the materials will be reviewed by the scientific committee and the approved manuscripts will be recommended to be published by Springer Nature Proceedings and/ or the Special Issue of the Geography, Environment, Sustainability (GES) Journal.

Conditions On-line registration and abstract submission is available on the congress web-site (ssc-conf.org). Participation fees are 350 euro for regular participants, 250 euro for junior and emeritus participants and 150 euro for a day ticket. Special conditions are available for participants from the Eurasian Soil Partnership (EUSP) countries. The fees include all the conference materials, meals and social program. Special grants and awards for young scientists will be provided for students, PhD students and young scientists. All the foreign participants will also receive visa support and any other assistance with organization of the trip to Moscow. Please visit the ssc-conf.org website for the detailed information.
