

ViMi3: Second Circular

Dear friends and colleagues,

We are happy to announce that the [preliminary programme](#) of the third Virtual Micromorphology Meeting (ViMi3) on **Thursday the 31st of March** and **Friday the 1st of April**, is available now.

We are currently organizing the Break Out Room Sessions according to the interests expressed by registered participants. So, if you are [not registered yet](#), do so and help to decide what the last remaining Break Out Room session will be about. Also, we have room for one additional live microscopy session. **If you have the necessary infrastructure and want to show your thin section(s) to the community**, do not hesitate to send us your session proposal at vimimeeting@gmail.com until **March 13**.

Students (from undergraduate to PhD levels) may participate in the **second [Microphotograph Contest](#)**. The winner receives a physical copy of the 'Guidelines for Analysis and Description of Soil and Regolith Thin Sections' by Georges Stoops (Second Edition, 2021).

Any updates to the preliminary program will be announced on the [meeting's website](#). Of course, we will also inform all registered participants via mail. If you have any questions, please do not hesitate to contact us at vimimeeting@gmail.com.

We are looking forward to experiencing another fantastic online workshop with great topics on archaeological soil micromorphology!

All the best,
The Organizing Committee

Sarah Lo Russo, Yannick Devos, Luc Vrydaghs and Barbora Wouters
