

June 3rd, 2026

Dear Colleagues,

The Eurosoil 2028 Organising Committee is pleased to connect with representatives of national soil science societies to invite your involvement s as we progress with the conference planning.

Eurosoil 2028, is hosted by the British Society of Soil Science (BSSS) in collaboration with the European Confederation of Soil Science Societies (ECSSS). Eurosoil 2028 will bring together researchers, practitioners, policymakers, and industry leaders to explore the vital role of soil in addressing global challenges. Alongside the main conference programme, we are looking to offer a variety of complementary and paid-for activities, including pre-conference workshops, conference dinner, and post-conference tours and we would love to hear your thoughts, ideas, and feedback.

We have confirmed that Eurosoil 2028, will take place in the vibrant and historic city of Edinburgh, at the Edinburgh International Conference Centre (EICC). We also unveiled our main theme for the congress, 'Soil at the Heart of Society', where we will celebrate the diversity and importance of soils across Europe and beyond. Work is progressing on the scientific programme, with efforts focused on developing engaging sessions and identifying leading speakers to reflect the breadth and relevance of contemporary soil science.

In the coming months, we will announce our scientific committee, and release further information on the programme's scientific themes, together with key dates for the submission and review.

We strongly encourage national societies to take an active role in shaping Eurosoil 2028.

We hope to meet many of you at the 23rd WCSS in Nanjing, where we would be delighted to discuss our plans in more detail and hear your perspectives. You can find us at booth D20. Your input will be invaluable in ensuring that Eurosoil 2028 is inclusive, impactful, and beneficial for all participants.

We would be grateful if this message could be circulated within your society, and we welcome members to contact us with any queries and ideas.

We look forward to collaborating ahead of Eurosoil 2028.

Kind regards,

Eurosoil 2028 Organising Committee
